

ACTIVITY/QUIZ
STAT 2A
SET A (ODD NUMBER)

Name: _____ Date: _____

Year and Section: _____ Score: _____

Solve the following: Show your complete solution for full credit.

- 1. Construct a Frequency Distribution Table (FDT)**
- 2. Compute the value of Range, class interval and class size.**
- 2. Calculate the mean, median, mode, variance and standard deviation (using grouped and ungrouped data)**
- 3. Calculate the P34, P76, D4, D7, and Q3**

A social scientist examines the record of several hospitals and finds the following sample ages of women at the birth of their child:

30	18	35	22	23	22	36	24	23	28	19	23
21	24	19	33	23	19	32	21	18	36	21	25
39	22	23	18	22	28	18	15	25	21	23	26
36	27	21	28	26	22	28	33	18	17	21	15
23	15	20	38	16	24	42	22	24	24	20	17
21	28	20	29	14	25	20	19	17	21	24	26
25	24	33	17	21	24	38	24	20	20	16	21
26	39	22	19	17	21	26	29	24	25	31	22

ACTIVITY/QUIZ
STAT 2A
SET B (EVEN NUMBER)

Name: _____ Date: _____

Year and Section: _____ Score: _____

Solve the following: Show your complete solution for full credit.

- 1. Construct a Frequency Distribution Table (FDT)**
- 2. Compute the value of Range, class interval and class size.**
- 2. Calculate the mean, median, mode, variance and standard deviation (using grouped and ungrouped data)**
- 3. Calculate the P43, P67, D4, D7, and Q3**

A social scientist examines the record of several hospitals and finds the following sample ages of women at the birth of their child:

23	15	20	38	16	24	42	22	24	24	20	17
21	28	20	29	14	25	20	19	17	21	24	26
25	24	33	17	21	24	38	24	20	20	16	21
26	39	22	19	17	21	26	29	24	25	31	22
30	18	35	22	23	22	36	24	23	28	19	23
21	24	19	33	23	19	32	21	18	36	21	25
39	22	23	18	22	28	18	15	25	21	23	26
36	27	21	28	26	22	28	33	18	17	21	15
